ANNEX – XII Annuity Amount Payment Adjustment Formula

The following formula / working shall be used to make adjustments from the Annuity Amount Payments based on the level / degree of fulfilment of the KPIs by the Operator. The following adjustments shall be calculated by the Independent Auditor based on the evaluation of the KPIs done by the Independent Expert and the quarterly invoice generated by the Operator from time to time and in accordance with this Agreement. For the sake of clarity, it may be noted that the formula would be utilized in calculating adjustments / deductions, if any, from the Management Fee; however all other cost heads as provided in the Financial Bid form at the bidding stage would be reimbursed on 'as per actual basis' and as claimed in the quarterly invoices generated by the Operator; except for the management fee of the first 2 (two) quarters, which shall be paid in full. Furthermore, apart from the management fee (which can only be invoiced for a quarterly portion of the yearly fee) the total amount claimed in the quarterly invoices cannot exceed the yearly financial projections unless the same are permitted under the Article-8 of the Concession Agreement or recommended by the Independent Auditor.

QP = (MF * PP) + (RA) + (RC)	
QP	= Annuity Amount to be paid in Annuity Amount Evaluation Period
MF	= Management Fee (to be paid on quarterly basis) for Annuity Amount Evaluation Period
PP	= Performance Percentage given by IE after evaluation of KPIs in the quarter. Performance Percentage shall be calculated on the basis of indicators applicable for a particular quarter. i.e. PP= Marks Obtained / Total Marks (of applicable indicators) x 100
RA	= Total Reimbursable Amount in the quarter, as verified by IA, based on invoices
RC	= Redeemed Claim (if any / applicable) for the last quarter, as per Article 8.2.3. & 8.2.4.

Two sample workings in respect of the above formula, showing how the formula shall be applied to the level of fulfilment of KPIs, are given below:

Example-1:

For example, the Operator submitted invoices with reimbursable claims of PKR 3,000,000 (RA) and Management Fee (MF) of PKR 700,000 for the concerned quarter. The total Quarterly Payment (QP) shall be calculated using the following formula:

Management Fee Payable (MF * PP)	=	700,000 * 91% = 637,000 (PP – Performance percentage to be calculated on the basis of evaluation of KPIs by IE, as shown in the example given in the table)
RA (amount as verified by independent auditor)	=	3,000,000 (after any deductions by IA, if any)
RC (if any / applicable)	=	0 (not applicable for this quarter)
Total Quarterly Payment (QP)	=	637,000 + 3,000,000 + 0
	=	3,637,000 (Three million, six hundred thirty seven thousand only)
